### **Advisories**

Applicants should keep the following in mind when applying for support:

1. The Foundation will assume that the IRS determination letter submitted with the proposal is in effect. It is the applicant's responsibility to notify the Foundation of any change in their nonprofit status.
2. Unless otherwise specified, operating and general support grants can be applied to any legally permissible aspect of the grantee's activities, including lobbying. It is the grantee's responsibility to meet the appropriate IRS regulations regarding lobbying by nonprofit organizations.
3. In the case of projects where a significant amount of the work being conducted by organizations or individuals other than those in the employ of the applicant organization, the applicant organization remains responsible for the execution of the project and all fiscal and programmatic accounting to the Foundation.
4. In some cases, the Foundation's grant could cause "tipping" of the grantee's public support test for their nonprofit status. It is the applicant's responsibility to determine whether such a grant could tip them and notify the Foundation accordingly. Applicants should consult their accounting/legal counsel on tipping.
5. Applications are considered confidential and are the property of the Foundation.
6. Operating requests should describe the range of activities conducted by the organization and make the case for the value and importance of the organization's mission.
7. If the applicant organization has received prior support from the Foundation, please ensure that reporting requirements for prior grants have been met. Failure to meet these requirements may delay review or declination of current requests.
