

GRANTS AWARDED

PROGRAM INTERESTS

3rd Quarter 2020

DEMOCRACY AND CIVIL SOCIETY

The Foundation supports efforts that promote a just, inclusive, sustainable society. It supports full participation of all races, genders, and underserved populations in our voting process. It supports removing dark money from politics.

MEDIA

The Foundation supports public interest media that raises awareness of critical environmental, political and social issues to promote a better informed citizenry in the U.S. It supports quality, non-commercial media that is substantive, fair, and accurate. Program priorities include investigative journalism, media policy and public broadcasting.

ENVIRONMENT

The Foundation's Environment Program has two major interests: To ensure drinking water is clean, affordable, and accessible, protected and managed as a public necessity; and To challenge continued shale gas extraction and infrastructure expansion.

ANIMAL WELFARE

The Foundation supports nationally-significant efforts to ensure the humane treatment, care and well-being of domestic animals and the protection and conservation of endangered wildlife and wildlife in captivity in the U.S. The program supports innovative, comprehensive, solution-oriented models that lead to systemic change, reduce suffering, and foster a more compassionate society.

SUSTAINABLE ITHACA

The vision of the Sustainable Ithaca program is that Ithaca and Tompkins County become a fully sustainable community – environmentally, socially and economically. Accordingly, grantmaking addresses a spectrum of topics with emphasis on integration of systems and cross-sectoral collaboration. A special interest is on projects that enable low-income and the community of color access to and participation in sustainability measures.

COMMUNITY NEEDS

The Community Needs program concentrates on opportunities for low-income residents of Tompkins County, NY. An important value of the Foundation is equity and the Foundation places a strong emphasis on equity in human service grants and efforts which lead to good outcomes for all.

FOOD AND NUTRITION

The vision for the School Food and Nutrition Special Project area is that all Tompkins County residents will have adequate nutritional security to support their health, growth, and well-being. In particular, the Park Foundation has set a goal of ensuring that every student in Tompkins County has access to and is choosing to eat nutritious and appealing food in school. The Foundation is viewing this work through a social justice lens. This includes the understanding that access to adequate, healthful food is a human right and closely linked with an individual's or family's ability to focus on higher-order priorities such as employment, education, participation in public life and caring for family and community.
